DESTINATION BRIDE

Jetting off to a different country or deciding whether or not to do your own wedding makeup or maybe you wanted to book Be Fabulous for your bridal makeup but unfortunately found out we were already booked?

Well there's no need to stress my Destination Bridal Lesson is an in depth one-to-one workshop designed to give you the confidence to apply your own professional wedding day make-up that lasts all day, doesn't feel heavy or "cakey" looks beautiful in daylight and photographs like a dream.

Together we'll design your bespoke bridal make-up, considering key features from your wedding day, including your hairstyle, flowers, dress, the location, the season and even the time of day. We'll explore any particular looks you love, and we'll draw inspiration from the natural beauty of your face.

With my bridal make-up, you won't have to spend your day constantly applying products just to be ready for the cameras. We can show you how to apply a stunning bridal look using light-capturing products for incredible photo-friendly facial definition.

All you'll need to do is smile.

- The bridal lessons are based on the "half face" technique, where I will demonstrate each stage step by step on one half of your face, and then guide you to apply the make-up to the other half of your face using the techniques that you have just learnt. This "learning through doing" approach will give you the confidence that you will need to be able to repeat what you have learned once you have left the salon.
- You will receive a full list of products and tools used and a simple, memorable application routine, including pictures to turn your dream design into reality, each step infused with calmness and confidence to carry you through your big day.
- We will also check in with you a few weeks before your wedding too, just to make sure you feel 100% confident and there's nothing further you need to know in preparation for your wedding makeup.

TEEN MAKEUP LESSON

As makeup artists and skin care therapist, we show young women how to use make-up to reveal their beautiful face, not mask it. For me, teen make-up is not about seeing imperfections and covering them up. It's about recognising your beautiful features, and making the most of them with the right colours and techniques.

So whatever skin challenges your daughter is having, whatever habits she's stuck in, whatever trends she's following, you can trust us. We will gently open her eyes to a natural style and tactfully guide her away from the need to mask, hide and conceal.

We will show her professional tips and techniques as part of a simple routine she can use every day to wear her beauty confidently.

We tailor my teen lesson entirely on the beautiful person in front of me. We use a step-by-step, half-face technique so she will see clearly how each step brings out her features.

Here is what this lesson will cover:

- How to clean and protect teenage skin
- Core skills for applying fresh, natural-looking make-up
- An eye-opening understanding of what makes her face uniquely beautiful
- Professional techniques for getting the best out of the products and tools she has at home

Appointment time: 2hrs..... £80.00

- Creating the perfect curl for you, whether that be with straighteners, tongs or more of a wave with a wand we have you covered!
- How to use different products and how they can change the look of your hair.
- A few easy but very effective day to day hairstyles that you can then adapt for a more glamorous look for those special occasions
- You can also use this lesson to use our professional help on something that you have always wanted to learn but have never managed to master, for example: French braids, fish tail braids, Dutch braids etc.
